Nested's Pediatric and Adult CPR/Choking Prevention/First Aid/AED Certification Course, an American Red Cross blended class

Nested offers this [American Red Cross Pediatric & Adult CPR/Choking Prevention/First Aid/AED certification course](#) in a blended learning class format to help you learn the latest life-saving skills and train in the way that suits you best. It consists of a self-paced, interactive online session to be taken in the convenience of your home, followed by an in-person, hands-on skills training session with one of Nested's certified American Red Cross instructors.

This course is ideal for childcare professionals (e.g., nannies, au pairs, and babysitters), parents, grandparents, and siblings to help prepare you to recognize and respond to a variety of breathing and cardiac emergencies involving children and babies.

LOCATION: Arlington & Falls Church, VA – *NOTE: ALL breathing portions of CPR practice are conducted outside due to ongoing health & safety precautions; and, classes held at our Arlington, VA location will be entirely outside, depending upon class size and weather permitting*

PRICE: \$160 / person – Please [contact Nested](#) for special group pricing

- 1 registration ticket is for 1 person for the class — to access the online portion & attend the hands-on in-person portion of the class. Refunds are not available for this class. Should you choose to not complete or are unable to complete the online portion of the class, you may still attend the “hands on” in-person portion of the class to learn & practice techniques *WITHOUT* receiving the 2-year certification.
- Registration closes 2 weeks prior to the class date. This provides time for the client data to be processed into the American Red Cross system, which will then auto-send the account creation & log-in details to the clients to provide plenty of time to take & successfully pass the online portion of the class.

4-HOUR TIME COMMITMENT: American Red Cross online learning portion is 1-2 hours (done at your own pace at home), followed by a 2-hour in-person class for review and hands-on practice. *NOTE: The online portion must be completed PRIOR to being eligible to attend the hands-on portion of the class.*

- The online session must be successfully completed at least 2 days PRIOR to attending the in-person class. *Please allow 2 hours for the online portion.*
- During the 2-hour in-person portion of the course, the instructor will show how to resuscitate using CPR and an automated external defibrillator (AED) on specialized, non-responsive infant and adult CPR dolls as well as choking prevention strategies. Attendees will be able to practice techniques on the dolls and must demonstrate each technique successful in order to obtain certification.

In order to obtain a course completion certification card, students must successfully complete the course, which includes both the online portion as well as the in-person first aid skills demonstration, a CPR and AED skills test. Upon completion, students receive an American Red

Cross CPR Certification, which is valid for 2 years. This course satisfies OSHA-mandated job requirements, workplace or other regulatory requirements.

Please note that upon registration and payment for this course, you will receive a payment confirmation registration email; and an email with instructions & a link to the American Red Cross portion of the interactive online CPR session -- this email may not arrive for 2-3 days. You will also receive a reminder email a few days prior to the hands-on portion of the class with logistics & location details. Be sure to check your junk/spam folder for emails from: [info@](mailto:info@nestedbaby.com) & [admin@](mailto:admin@nestedbaby.com) nestedbaby.com.

ABOUT NESTED

Drawing upon more than 2 decades of experience as a healthcare provider, public health advocate, educator & mom, [Nidhi Reva, MPH, PA-C](#) founded Nested LLC in 2017 to empower women & their families, both locally & abroad, by providing them with childbirth & newborn care education and invaluable medical & public health resources.

Nested's comprehensive, HIPAA-compliant childbirth education (CBE) and newborn & infant care with CPR certification and choking prevention (NB/CPR) [classes](#) promote a safe, casual, interactive learning environment to prepare expectant parents, grandparents & caregivers for physical and emotional pregnancy issues and for their baby's arrival. In 2022, Nested started offering two American Red Cross certified classes: Pediatric and Adult CPR/Choking Prevention/First Aid/AED Education, and Comprehensive Babysitting Course with Pediatric & Adult First Aid/CPR and AED Certification.
